

ShopWithUs Store – Website Document

Problem Statement in brief

Create a basic e-commerce website using HTML and CSS, consisting of the following pages:

Index page:

- Header with the website name "ShopWithUs Store" and navigation links to login and signup pages.
- Content section with banner images and a "Shop Now" button.
- Item category listing section.
- Footer with copyright information and contact details.

About us page: Information about the company, such as:

- The start of the shop.
- The owner of the shop and his motivation.
- Awards won by the shop in the past 10 years.

Product page: List of 10 products sold by the company, including:

- Product name.
- Product price.
- "Add to cart" option.
- Any other relevant product information.

Additional requirements

- All pages must have the same basic page structure.
- Use suitable images for the banner and product pages.
- Validate the HTML code.

Deliverables

- HTML and CSS files for the index, about us, and product pages.
- Validated HTML code.

Website Introduction

A luxury product selling website featuring a products page and an about us page has been created along with login and signup portals.

Each section of each web page, along with the corresponding HTML and CSS code, has been separated into individual topics for ease of reference.

Overview of the Home Page
